

FM 77 evo

The Replay EVO range includes a series of basic chamber wrapping machines, while not sacrificing the typical quality of the products by Record Packaging. Thanks to the excellent value for money, offering new cutting-edge systems at affordable prices, it is the most competitive proposition among all our series of chamber machines.

Technical Solutions

- Standard sealing bar cooling: optimal sealing
- Immediate shrink fan stop: reduced loss of hot air and resulting energy savings, a benefit for the operator
- Innovative upper hood fastening: simplified maintenance and enhanced stability
- Sealing blades safety control: enhanced machine safety
- Support with larger reel diameter (300 mm): suitable for micro-punched film to pack bread
- Packaging plate separated from the reel support: suitable to package even very small products with the same film reel
- Innovative micro-perforator: continuous and optimal perforation
- New ultra-flat tactile membrane: waterproof and with intuitive graphics not associated with the board
- 3-digit display: visibility and comprehensive information
- Board with 10 programs to meet any programming need
- Piece counter included: a more exhaustive supply of equipment
- Board access through a door: easier maintenance from the front
- Longer screened plate: chamber opening flap protection
- Boosted fan motor: superior shrinking performance
- Added safety thermostat installed directly on the resistor of the heat chamber: greater safety for the machine
- Glue-less neoprene rubber support: easy to replace, does not require the use of glue.

Technical Features

Electrical power supply	400V 50/60Hz 3Ph
MAX power installed	6,0 kW
Maximum current	9,5 A
Hourly output	0-300
Available dimensions of the sealing bars	840x590 mm
MAX product size	800x500x200 mm
Maximum reel dimensions (Ø x length)	Ø300x800 mm
Work surface height	940 mm
Machine dimensions (open hood)	1950x1000x1480 mm
Machine dimensions (closed hood)	1950x1000x1180 mm
Machine weight (Net/Gross)	220/272 kg
