

Freska

Freska is a revolutionary machine designed to package all types of trays on the market without the need for custom molds. The film adheres to any product, with or without trays.

The machine also allows all types of films and pouches to be packaged.

Ideal for packaging meat and all types of food.

Freska allows the simultaneous installation of 2 reels (even with different characteristics!) that are always ready to use. This saves time with each reel change.

Technical Solutions

- **High-performance steel resistors:** shrinking time cut by 50% and heating time cut by 60%
- **Soft Shrink fan speed adjustment:** perfect heat-shrinking also on very light or flexible products. Sealed areas do not open. Extremely quiet. Exclusive patent
- **Comfort Zone Fan Stop:** the fan stop is a “green” solution that allows to save 20% more energy and provides greater operator comfort during packaging, since the fan stops when the chamber opens
- **New latest-generation board:** quality components. 4-digit display
- **Thermo sealer:** universal moldless, with any type of tray including cardboard.
- **Stretch dispenser:** wraps with recyclable film any product with tray of any type and without tray.
- **Sealing machine:** creates any pouch shape and seals any material.

Technical Features

Electrical power supply	230V 1Ph 120V 1Ph
Maximum power installed	2 kW (230V) 2,25 kW (120V)
Maximum current	8,6 A (230V) 19 A (120V)
MAX product size	350x240x140 mm
MAX Reel Dimensions (Ø x length)	Ø170x380 mm (nr. 2)
Machine dimensions (open hood)	840x640x690 mm
Machine dimensions (closed hood)	840x640x540 mm
Weight (Net/Gross)	54/68 kg
